### SSESSMENTS DECREASED.

GROWERS' ASSOCIATION, HERE.

Met With the Board of Equalizution at Evanston and There of Was Treated Very Courteously-Sheep Valued at Market Prices, But Taxed For Only Sixty Per Cent-Descret Live Stock Company Paying a Ten Per Cent. Business News.

eril years have ranged their flocks cining and there paid taxes upon the county of Ulinta, Wyoming, un eling with the board and discussing mabter in hand. The recent action the board in jumping up the numighborhood of double the number of eep owned by them, caused a great lift; among the men of sheep and ey were prepared to make a great the against the action of the beard as an adjustment not made. There ill now be no ned of any context, it the simple reason that every re-test made to the equalizers was raited and everything has been sat-betority adjusted.

The basis of the settement was that a speepowners should make affidavits to the number of sheep sheared by the and of this number 60 per cent sem and of this number 60 per cent to be tixed the valuation placed con them being \$1.50 per head. This eans that the owners of flocks will by taxes on 60 per cent of their hold-gs, the sheep being listed at their all value as stated. It will now be the duty of the owners to make immed-te returns to the clock of Unita coun-of the number of sheep they sheared at the statements must be swent to id the statements must be sworn to galarly. This concession was not ade by the board until after the mat-t had been vigorously presented by Mackay. The county attorney con-ded all that the gestleman from tall said and the commissioners deten said and the commissioners de-ined to make any exception in the se of the sheepmen and ordered that sey should have the some treatment was accorded to the other property wars of the state, that is they shall be ared upon 60 per cent of their proper-the latter being scheduled at its able.

Ordered a Dividend Payment.

Having made a good sale of its en-re clip, the Lescret Livestock comre clip, the Lessret Livestock com-any is now in admirable shape, and, a the opinion of the board of direct-ics, amply able to make a distribution fearnings among the stockholders, a direct line with this opinion, the earl has just held a meeting at countiful and declared a dividend of fear cent on the capital stock of the stitution, which is placed at \$90,000, wen after this distribution the com-any will have a nice nest egg in the ank for emergencies and its flocks are materially increased during the ear. This would not indicate that the heep industry has been ruined by the heep industry has been rained by the temocrats, as some of the calamity-owlers would endeavor to make the cople believe. The company sold its and for 9% cents and within the next, we or three days could have obtained

#### Gathering Up Loose Ends.

For the purpose of gathering in some f the scattering clips which are gen-cally shifting toward the station of brice, on the Rio Grande Western, W. rice, on the Rio Grande Western, W.,
Pickard left for the eastern part of
he territory yesterday. He will probbly be out of the city for several days
and during that time expects to be
ble to gather in a healthy proportion
of the unsold or unconsigned wools of
hat district. There are not many
housand pounds undisposed of, but
some of that remaining is of a choice
banks.

The latest reports from the east relaive throughout the entire east and in consequence prices are being made in a manner heretofore unknown, that is, or computing the quotations on the mass of cost in the wool-growing diswasts of cost in the wool-growing dis-riets, the competition having sent wiess up beyond the point then guar-imeed on the Atlantic coast. The late quotations are 14 to 15 cents for the res unwashed and 37 to 40 cents for scoured. Fine territorial, which was sold with difficulty at 20 cents scoured gives to May 15th, is mow going at 33 by 40 cents. These prices are based upon a shrinkage of 70 per cent, which well not by the average this year by will not be the average this year by any manner of means, especially here in Utah. Worls which were going at · cents, unwashed, previous to a month ago, are now selling for from II to 13 its. Sheep owners are advised by well-posted operators to keep their The we flocks.

#### Our Wool Consumption.

In one of their latest circulars, Jus-tice, Bateman & Co. of Philadelphia, state that, contrary to expectations, the consumption of wool in the United the consumption of wool in the United States during the fiscal year ending June 30, 15%, was the largest on record and nor only exceeded by over 19,000,000 pounds that of the year 1833, which was the largest then on record, but exceeded by 67,000,000 pounds the average of the past five fiscal years. For 1895 the consumption was 228,438,833 pounds of domestic wools, 203,798,635 pounds of imported and 197,254,143 excepts of imported in goods, rags. pounds of domestic woos, 205,705,855, nounds of imported and 197,25,143 potents of imported in goods, rags, shoddy and waste, making a total of 629,400,626. The average total consumption for the five previous years was 571,610,847. This great use of foreign staples shows very plainly that the United States does not produce within over 290,090,000 pounds the amount of wool necessary to supply this country. manufactories. this country : manufactories.

of the four totaled \$1,994.971.12 and the resources \$4.432,302.30. Of this latter total the Deserct National gets credit for a little over one-half.

#### COLORADO RANGES GOOD.

Some Heavy Shipments of Cattle to # Be Made From the West. The ranges of western Colorado are

The ranges of western Colorado are in much the same condition relatively as are those of this territory, better than for years past, and in consequence the cattle are getting into aplendid shape and some heavy shipments will be made during the next three or four months. This was the news brought back by M. K. Parsons, who came in yesterday from the ranges of the Utah and Colorado Land and Cattle company, in which he and Mr. Hanuar are the chief owners. The company has stocked up heavily this season and in the fall will have some good beef for market. Shipments will not commence from these ranges before the advent of fall, but preparations are being made to move several thousand head of fat stuff from the White river yountry onto the eastern markets. These movements are to commence within the next ten days. Mr. Parsons easys there is an abundance of grass and ample water for the necessities of the livestock of the come—General Mining News.

#### GIVING PORMAL NOTICE.

Saturday Half Holiday to Be Con-

members of the organization to the effect that the recent action upon the petition of the employees of the banks of the city for a half holiday every Saturday has been accepted as merely formal notice of the prospective might do some extensive work there.

Saturday has been accepted as merely formal notice of the prospective amendment of the eaustination so as to make the hours for business on Saturday, from 19 a. m. to 1 p. m. Such being the case, President Donnellan colls another meeting of the association for the 17th day of August, at 8:29 p. m. and at that session it is anticipated that the final and formal action will be taken.

There is a great deal of speculation in business circles as to the probable outcome of the work being done by the advocates of the holiday system. As the matter now stands, the employees are doomed to disappointment, for it requires nine of the twelve members of the association to carry through any measure and these necessary nine are not yet piedged. The boys are doing some hard work, however, and feel confident that when the date of the meeting arrives they will have secured the necessary number of votes. As yet none of the business bouses of the city have entered protests against any change in the banking hours.

Buttle and it was dismantled and shipped to Bingham in order that it might do some extensive work there.
